Brothers,

Borrowed from “The CALIFORNIA FREEMASON”

### **In Masonry and Magic, Blending Illusion and Wonder**

For generations, the world’s greatest magicians have found a second home in Masonry. A deeper look reveals why the two crafts are about as intertwined as two brass rings.

The man in the top hat commands the attention of his audience. He recites a speech that was passed down to him through generations, mouth to ear. He invokes esoteric wisdom and alludes to its mystical origins in the east. Then he takes his wand, taps the hat twice, and runs through a greatest-hits show of performance magic: the coin behind the ear, the rabbit in the hat, and, the fundamental act for any magician, the cups and balls.

The parallels between Masonry and magic are clear to anyone who’s sat in a lodge room during a degree conferral or been astonished at a performer’s card trick. Both, of course, cultivate an air of secrecy and mystery. Both rely on sensory experience to make an impression on the mind. And both require a certain showmanship and panache to deliver a truly memorable experience. Perhaps most important, they share some significant membership overlap: virtually every one of the most celebrated magicians of the past 200 years have been Freemasons.

Masonry and magic each feature a long fraternal history. Like Masons, magicians have for generations gathered in clubs and societies of performers around the world. In fact, many of the hallmarks of membership in a Masonic lodge—the initiations, rituals, handshakes, and even funerary rites—can be found in groups like the International Brotherhood of Magicians and the Society of American Magicians, to which the great Harry Kellar, Howard Thurston, and Harry Houdini all belonged. All three, incidentally, were proud Freemasons.

That magic and Masonry connection was acknowledged by one Masonic publisher with a subtle sense of humor. In the early 20th century, the Allen Publishing Company of New York published ritual ciphers with fake titles meant to throw off curious snoops, titling one *Magicians’ Magic Movements and Ceremonies*. Rediscovered by the Scottish Rite Masonic Museum and Library in Massachusetts, the cipher opens with one page describing a fake magic-sword ritual. Then, without explanation, it jumps into the seeming gibberish of a ritual cipher book.

Harry Houdini: Master Magician and Mason

It’s a fitting sleight-of-hand trick, says Randy Brill, the grand master of California. Brill, too, has performed magic his whole life, and still counts himself as something of a semi-professional. “Most of us dabble in magic as kids, and some of us never grow up,” he explains. “Mystery has always attracted the human brain. We want to see something that mystifies us, something we can’t easily understand.”

Brill and Shelton are two of the organizers who will speak at the 2023 Masonic Symposium on June 28, titled *Harry Houdini: Master & Mystic*. The event pays homage to the Mason, magician, and Hollywood figure who perhaps did the most to bring performance magic into the public consciousness.

Houdini, of course, is practically the patron saint of Mason-magicians. He pushed the boundaries of the field, combining stage magic, parlor magic, illusion, and escape acts in his most celebrated performances. In an era long before television or social media, Houdini was a masterful marketer and showman who knew how to garner publicity. What’s less known about him is that Houdini was a committed Mason. He was initiated and raised in 1923 at St. Cecile Lodge № 568 in Manhattan (which is still active today), performed at Masonic benefit shows, and even received a traditional Masonic funeral.

Masons and Magicians: Birds of a Feather

What is it that's so appealing about an act of illusion? Why do normally rational people—especially Masons, whose teachings are grounded in the seven liberal arts and sciences—delight in witnessing feats that fly in the face of the laws of physics?

Gustav Kuhn attempts to answer that question in his book *Experiencing the Impossible: The Science of Magic*. Kuhn is a professor at the University of London and a magician with the Magic Circle there.

He speculates that magic acts might actually serve a cognitive function—namely, allowing us to hold contradictory beliefs. Kuhn suggests that “magical thinking” is innate in humans, dazzling us as babies playing peekaboo and confounding us as adults gambling at a casino even when we know the odds are stacked against us.

**Magic and Masonry: A Spiritual Kinship**

So, beyond their parallel fraternal histories, the similarities in custom, and the many significant figures they share in common, some practitioners speculate that perhaps Masonry and magic share a more spiritual sort of kinship.

That instinct to break down seemingly supernatural acts into replicable components is common to nearly all magicians. In fact, Shelton says, there may be no more determinedly rational, critical thinkers out there than magicians. Call it the credo of an honest liar: Many famous magicians have made it their mission to expose performers who blur the line between illusions and miracles. Houdini, James Randi, and Penn & Teller, for example, have all aggressively exposed performers who claimed divine intervention. Houdini even commissioned an unpublished manuscript by H.P. Lovecraft called *The Cancer of Superstition*.

So, beyond their parallel fraternal histories, the similarities in custom, and the many significant figures they share in common, some practitioners speculate that perhaps Masonry and magic share a more spiritual sort of kinship.

**Masonry: The "Other Magic"**

Centuries ago, the line between magic and science was not so clear or well defined. So-called “natural magicians” of the Renaissance era blended concepts of metaphysics, alchemy, and magic. It was into this proto-scientific hothouse that many of the themes found in “speculative” Freemasonry were born. Historically, even some esteemed scientists dabbled in “the other magic.” Consider Isaac Newton, an icon of science and the Enlightenment and a president of the Royal Society. Only after Newton's death was it discovered that a substantial portion of his manuscripts dealt with alchemy and the occult. John Maynard Keynes, who purchased Newton's private writings, was compelled to observe that, “Newton was not the first of the age of reason. He was the last of the magicians.”

Even defining magic is no easy task. It's a loaded word with contested meanings. Some magicians bristle at the word magic and prefer the term illusion. Others embrace the word but are loath to acknowledge other types of magic. Justin Sledge, a scholar in Western esotericism, observed that the word magic has historically been used to “other” those with divergent views, denigrating them by implying that they trade in sorcery or trickery.

(Consider how “magical” elements of gnosticism or voodoo are used to delegitimize those spiritual traditions.) Modern magic, whether we call it “stage magic” or “performance magic,” might never completely shake off those less-than-reputable vestiges of its past.

**In Masonry and Magic, a New Order**

Magic, whether as a staged illusion or in the supernatural sense, likewise rearranges our sense of order. The performer is able to control the seemingly uncontrollable. Ritual offers a similar kind of magic of its own. The Masonic ritual, which is fixated on precise movement and memorization, offers the promise of an invisible transformation. The anthropologist Bronisław Malinowski said of ritual and magic, “Magic is to be expected and generally to be

found whenever man comes to an unbridgeable gap, a hiatus in his knowledge or in his powers of practical control, and yet has to continue in his pursuit.”

Whether it's Houdini escaping a water tank or a costumed amateur pulling out your queen of diamonds from his deck, the magician is able to command an aura of wonder. They pierce the veil of perception, promising us a fleeting glimpse into what might be on the other side. Both the Mason and the magician, then, can be best described as seekers—those wishing to see more, to go beyond, to push the limits of their perception. Like the Masonic initiate, they await the moment of illumination from the proverbial darkness. As the magician says, Abracadabra!

S & F

W. Bro. Eriberto Castillo

# New Jersey Grand Master Cruise 2026

## Pricing Options via Seaview Travel LLC's Group Booking

### Please Keep In Mind:

- To take advantage of these rates, it is important to make a reservation and deposit as soon as possible. **These rates are locked for a specific amount of rooms per room type and will be filled on a "first come, first served" basis.**
- **Once we meet our max. amount of rooms for a category**, we are not able to add more rooms within that category at this price point. In this scenario, the travel agent will explore the other room options available to you and its corresponding cost.
- You will have until **May 2026** to cancel with a **full refund of your deposit** if you are no longer able to attend.
- The prices listed are for **2 people per room**.

### Room Type/Price:

- **Promenade View Interior:** \$3,249.46 (20 cabins reserved)
- **Connecting Promenade View Interior:** \$3,203.46 (20 cabins reserved)
- **Ocean View Balcony:** \$4,941.46 (75 cabins reserved)
- **Ocean View:** \$3,715.46 (10 cabins reserved)
- **Ocean View:** \$3,693.46 (35 cabins reserved)
  - These ocean view options are the same type of room--the difference would just be location on the ship (ex. lower vs. higher deck or forward vs. midship).
- **Inside:** \$2,877.46 (15 cabins reserved)
