---

My plan for painting downstairs:

1. Install tv on a full motion wall mount where mirror is now hanging. Install shelf under the tv for the cable box.
2. Remove current shelves between closet doors and repair wall as needed.
3. Spray ceiling with Procoustic ceiling paint. This paint is designed for suspended ceilings. The tiles and grid can be painted in place and the paint will not bind them together.
4. Repair and paint remaining walls, doors and trim in main room and hall. I propose that the large wall be painted Navy Blue. The wall behind the refrigerator will be White.
5. I think it would be nice to install a Masonic Logo, in the form of a decal, on the long wall that will be painted Navy Blue. I am waiting for a price on the decal.

*A Door For Closet*

I will supply all of the paint and painting supplies needed at no charge to the Lodge.

The bracket for the TV can be purchased on Amazon for less than \$70.00.

I think that with a few helpers, this should take 2-3 days.

Day 1 - wall repair and spackle, cover lights and smoke detectors with plastic, paint ceiling

Day 2 and 3 - paint walls and trim. Clean up.

Dates that I am available:

Feb 8-9

Feb 15-16

Feb 28 - MAR 1

MAR 15 - 16

SUBMITTED,

BR. GREG DOHN
